

# Smart Security - Simplified Management

accessIQ®

# PERSONALIZED ACCESS FOR SMALL COMMUNITIES

Managing mechanical keys is costly, with expenses reaching up to \$6,000\* annually for a 50-unit building due to locksmith fees, lockouts, and key replacement. **accessIQ.** offers a smart, affordable solution designed to simplify property management, enhance security, and provide seamless access for tenants—all managed through your phone or computer.

\*Based on a locksmith rate of \$200/hour and 30 hours of service annually.

## KEY FEATURES

**Keyless Entry:** Say goodbye to fumbling for keys and late night lock-outs. With AccessIQ, tenants can access their apartment effortlessly using a smartphone, key card or PIN code.

**Secure Mobile App:** Our intuitive mobile app lets you; lock and unlock your door, see an activity log of lock access, check battery charge level and lock status, and grant access to family, friends and service providers. With the gateway this can all be done from anywhere in the world.

**Virtual Keys:** Share access with ease. Grant temporary or permanent virtual keys to visitors, housekeepers, maintenance staff, and more, ensuring secure and monitored entry.

**Advanced Encryption:** Rest easy knowing your data is safe. AccessIQ utilizes state-of-the-art encryption to safeguard your personal information and keep unauthorized access at bay.

- 1 Apple Wallet/Google Wallet  
- 2 Keycard
- 3 Pin code
- 4 Mobile app
- 5 Mechanical key

**Auto-Lock:** No more wondering if you locked the door. AccessIQ's auto-lock feature ensures your door is securely locked after a set and customizable period.

**Real-Time Notifications:** With the gateway, stay informed about your home's security. Receive instant notifications whenever someone enters or exits your apartment, ensuring you're always in the know.

**Motorized latch:** Motorized latch for convenience in auto-locking and remote operation.

**Sleek Design:** Designed to complement any décor, AccessIQ seamlessly blends functionality with style, enhancing the aesthetics of your living space.

**Rechargeable Battery:** AccessIQ's battery technology will last over a year on a single charge (up to 10 activations/day). Battery status for each lock is on the web portal, in the app and on the lock. It's easy to charge and you won't be throwing away costly disposable batteries.
